

Fortune Mlilo

Cloud & Web Solutions Developer | API & Automation Specialist

South Africa | fmlilo15@outlook.com | +27 62 050 5644 | github.com/FortuneFire | linkedin.com/in/fortune-mlilo

Professional Summary

Cloud & Web Solutions Developer with a strong foundation in Python, AWS cloud services, Linux, and modern web technologies. Combines graphic and web design experience with software development to deliver user-centered, scalable, and visually clear applications. Skilled in API-driven web apps, automation scripts, containerization (Docker), and CI/CD deployment pipelines. Experienced in building end-to-end solutions that integrate cloud infrastructure, development, and design, with a focus on performance, usability, and maintainability.

Key Skills

- **Programming & Automation:** Python, REST APIs, scripting, workflow automation
 - **Web Development:** Angular, HTML5, CSS3, JavaScript, jQuery, WordPress, Bootstrap
 - **Cloud & DevOps:** AWS (Cloud Practitioner), EC2, S3, Lambda, Docker, basic Kubernetes, CI/CD pipelines
 - **Databases & Systems:** MySQL/PostgreSQL basics, information systems knowledge
 - **Design & UX:** Graphic & web design, UI/UX principles, responsive layouts, Figma, Adobe Creative Suite
 - **Tools & Platforms:** Git/GitHub, Linux CLI, Cloud deployment, performance optimization
-

Projects / Portfolio Highlights

1. Full-Stack Portfolio Web App

- Angular frontend + Python backend + MySQL database
- Deployed on **AWS S3 & EC2** with CI/CD (GitHub Actions)
- Interactive forms, API-driven data, responsive design

2. PronouncedTech Client Dashboard

- Collects **customer statements from Zoho**, integrates **PayFast “Pay Now” option**, manages project updates, meeting notes, legal documents, and live ad performance feeds
- Centralized client communication and business workflows

3. Python Job Scraper & Analyzer

- Scrapes job postings matching qualifications, categorizes, summarizes, and provides direct application links
- Automates job search and organization for efficient application

Professional Experience

Twinkl Educational Publishing – Remote | Graphic Designer | 09/2023 – Present

- Designed engaging, age-appropriate learning resources that balance **visual appeal and usability**.
- Produced **50–60 resources/month**, maintaining brand consistency and practical usability.
- Achieved **<15% revision rate**, reflecting high accuracy and client satisfaction.

PronouncedTech – Remote | Website & Graphic Designer | 02/2019 – Present

- Designed and developed **responsive websites** and graphics that elevated client brands.
- Increased client website traffic by up to **30%** and boosted social media engagement.
- Streamlined design and development workflow, **reducing project turnaround time by 25%**.
